

John Tyrone Coronel

Marine Biologist | Ocean Researcher

contact@email.com | Coastal City | Male | 3 Years Experience

PROFESSIONAL SUMMARY

Dedicated Marine Biologist focusing on coral reef conservation and marine ecology. Experienced in underwater field research, scuba diving, and marine species identification. Passionate about ocean conservation and studying the effects of climate change on marine ecosystems. I do not write code or manage software developers.

CORE SKILLS

- Marine Species Identification
- Coral Reef Health Assessment
- Scuba Diving (PADI Advanced Certified)
- Water Quality Testing and Sampling
- Wildlife Conservation and Rehabilitation
- Field Research and Data Collection

WORK EXPERIENCE

Marine Research Assistant | Oceanic Institute | 2022 - Present

- Conducted underwater surveys of coral bleaching events
- Collected water samples to measure salinity and pH levels
- Assisted in the rescue and rehabilitation of sea turtles
- Published findings in the Journal of Marine Conservation

EDUCATION

BS Marine Biology | Coastal University | 2018 - 2022
